

ZAUQ

A personal stylist for the clothes you already own.

01 The name

ذوق — taste. Not the tongue's; the eye's.

In Urdu and Persian, *zauq* means discernment — a cultivated sense of what is right. It is the quality a good stylist has and an algorithm has to earn. The whole brand descends from that word: restrained, literate, and confident enough to leave things out.

Two devices carry it. A didone wordmark speaks the name in the language of fashion. An arch — the frame already used around every garment and every mirror in the product — signs it without words.

PRONOUNCED

zowk

SET IN LATIN AS

ZAUQ — never Zauq or zauq

Primary logo

USE THIS UNLESS A RULE BELOW SAYS OTHERWISE

ZAUQ

CONSTRUCTION

High-contrast didone, regular weight, all caps.
Optically kerned: ZA 0.24em · AU 0.20em · UQ 0.16em. The Q's tail is part of the mark — never clip or straighten it.

NO RULE, NO TAGLINE

The primary logo carries nothing beneath it. The rule appears only in the ceremonial lockup at 200px and above.

MINIMUM SIZE

88px wide on screen, 22mm in print. Below that, use the bare arch instead.

ZAUQ

THE RULE

Spans the A through the U — roughly 40% of the wordmark's width — centred, 1px, gold. It sits low enough to clear the Q's tail entirely.

WHY IT EXISTS

It echoes the rule inside the mirror mark, so the two devices share one detail when they appear on the same surface.

NEVER

In the app header, in a nav bar, or under 200px. The rule turns to a smudge and the logo looks underlined.

04 The mirror mark

TWO TENANTS, PLUS A BARE FALLBACK

THE SCRIPT — CEREMONIAL

App icon, splash, packaging, invitations. 48px and above only.

THE EMPTY MIRROR — UTILITY

Non-Urdu markets, merchandise, co-branded surfaces.

BARE — BELOW 32PX

Favicon, notification badge, embossing, hardware.

Geometry: stroke 1px at every size — never scaled, always redrawn. Corner radius equals half the arch's width; the feet carry a 2–3px radius. Proportion is locked at 3:4.

05

Clear space & sizing

CLEAR SPACE = CAP-HEIGHT OF THE Z, ALL SIDES

MARK CLEAR SPACE = HALF THE ARCH WIDTH

1024 / 512 PX	Store icon, splash — script mark
180 / 120 PX	Home-screen icon — script mark
48 PX	Threshold — script drops out, arch carries alone
32 / 16 PX	Favicon, badge — bare arch, 1px stroke redrawn
88 PX / 22 MM	Wordmark minimum — screen and print

DARK — DEFAULT

#0B0A09 • RGB 11 10 9

The product's native ground. Cream logo, gold accent.

LIGHT — EDITORIAL

#F2EDE3 • RGB 242 237 227

Print, press, lookbooks. Ink logo, terracotta accent.

NEUTRAL — TACTILE

#D6CFC0 • RGB 214 207 192

Packaging, tags, garment care labels. Ink logo only.

GOLD — ACCENT

#D8B26A • RGB 216 178 106

Rules, primary actions, the arch. Never a background for body text.

#A9563A TERRACOTTA — SECONDARY, EDITORIAL ONLY

Two colours per surface, maximum. Gold and terracotta never appear together. No gradients, no tints of the gold — one value only.

Today, *wear this.*

ذوق

PLAYFAIR DISPLAY

400 • 400 ITALIC • 500

Wordmark, headlines, editorial voice. Italic carries emphasis — never bold.

NOTO NASTALIQ URDU

600

The mark only. Not for body copy or UI labels — to be replaced by commissioned calligraphy.

ARCHIVO

400 • 500 • 600

Interface, navigation, labels, body. Nav labels at 0.20em tracking, uppercase.

TODAY • CLOSET • MIRROR • CIRCLE

Composed for a work day, from what's clean in your closet.

Never tighten the tracking or bolden the weight.

Never set the wordmark in a sans, or in Archivo.

Never thicken the arch. One pixel, at every size.

Never place it on a gradient, a photograph, or a busy field.

Never add a tagline, descriptor, or TM lockup beneath the logo.

Never restyle the arch — no circles, no full radius, no 1:1 ratio.

09 Which mark, where

	WORDMARK	Packaging, garment tags	CEREMONIAL / SCRIPT
App header, web nav			
Splash, launch screen	CEREMONIAL + SCRIPT	Merch, non-Urdu markets	EMPTY MIRROR
App icon, store listing	SCRIPT MARK	Email, documents	WORDMARK
Favicon, badge	BARE ARCH	Social avatar	SCRIPT MARK, GOLD GROUND

OUTSTANDING BEFORE PRODUCTION

Redraw the wordmark as vectors with the kerning above baked in; commission the دوق in true nastaliq calligraphy; export the arch per size rather than scaling one file.
