

ZAUQ

A personal stylist for the clothes you already own.

01 The name

ذوق — taste. Not the tongue's; the eye's.

In Urdu and Persian, *zauq* means discernment — a cultivated sense of what is right. It is the quality a good stylist has and an algorithm has to earn. The whole brand descends from that word: restrained, literate, and confident enough to leave things out.

Two devices carry it. A didone wordmark speaks the name in the language of fashion. An arch — the frame already used around every garment and every mirror in the product — signs it without words.

PRONOUNCED

zowk

SET IN LATIN AS

ZAUQ — never Zauq or zauq

02 Primary logo

USE THIS UNLESS A RULE BELOW SAYS OTHERWISE

Z A U Q

CONSTRUCTION

High-contrast didone, regular weight, all caps.
Optically kerned: ZA 0.24em · AU 0.20em · UQ 0.16em. The Q's tail is part of the mark — never clip or straighten it.

NO RULE, NO TAGLINE

The primary logo carries nothing beneath it. The rule appears only in the ceremonial lockup at 200px and above.

MINIMUM SIZE

88px wide on screen, 22mm in print. Below that, use the solid arch instead.

Z A U Q

The image shows the wordmark 'ZAUQ' in a white, elegant serif font against a dark background. A thin, horizontal gold line is positioned beneath the letters 'A' and 'U', starting from the left edge of 'A' and ending at the right edge of 'U'. The 'Q' is positioned to the right of the line, with its tail extending below the baseline.

THE RULE

Spans the A through the U — roughly 40% of the wordmark's width — centred, 1px, gold. It sits low enough to clear the Q's tail entirely.

WHY IT EXISTS

It echoes the rule inside the mirror mark, so the two devices share one detail when they appear on the same surface.

NEVER

In the app header, in a nav bar, or under 200px. The rule turns to a smudge and the logo looks underlined.

04 The mirror mark

ENGLISH PRIMARY • ARABIC SECONDARY • SOLID BELOW 32PX

ENGLISH — PRIMARY

The default app icon in every store, plus splash and packaging. 48px and above.

ARABIC — SECONDARY

MENA markets and ceremonial surfaces. Same frame, same rule — one system.

SOLID — BELOW 32PX

Favicon and badges. Filled, never outlined — a hairline greys out when downsampled.

Geometry: stroke 1px at every size — never scaled, always redrawn. Below 32px the outline is replaced by a filled arch. Corner radius equals half the arch's width; the feet carry a 2–3px radius. Proportion is locked at 3:4.

Clear space & sizing

CLEAR SPACE = CAP-HEIGHT OF THE Z, ALL SIDES

MARK CLEAR SPACE = HALF THE ARCH WIDTH

**DARK — DEFAULT**

#0B0A09 • RGB 11 10 9

The product's native ground. Cream logo, gold accent.

**LIGHT — EDITORIAL**

#F2EDE3 • RGB 242 237 227

Print, press, lookbooks. Ink logo, terracotta accent.

**NEUTRAL — TACTILE**

#D6CFC0 • RGB 214 207 192

Packaging, tags, garment care labels. Ink logo only.

**GOLD — ACCENT**

#D8B26A • RGB 216 178 106

Rules, primary actions, the arch. Never a background for body text.

#A9563A TERRACOTTA — SECONDARY, EDITORIAL ONLY

Two colours per surface, maximum. Gold and terracotta never appear together. No gradients, no tints of the gold — one value only.

PLAYFAIR DISPLAY

400 • 400 ITALIC • 500

Wordmark, headlines, editorial voice. Italic carries emphasis — never bold.

ذوق

NOTO NASTALIQ URDU

600

The mark only. Not for body copy or UI labels — to be replaced by commissioned calligraphy.

TODAY • CLOSET • MIRROR • CIRCLE

Composed for a work day, from what's clean in your closet.

ARCHIVO

400 • 500 • 600

Interface, navigation, labels, body. Nav labels at 0.20em tracking, uppercase.

ZAUQ

Never tighten the tracking or bolden the weight.

ZAUQ

Never set the wordmark in a sans, or in Archivo.

Never thicken the arch. One pixel, at every size.

ZAUQ

Never place it on a gradient, a photograph, or a busy field.

ZAUQ
TASTE, WORN

Never add a tagline, descriptor, or TM lockup beneath the logo.

16PX, OUTLINED

Never use the outlined arch below 32px — the hairline greys out. Fill it instead.

OUTSTANDING BEFORE PRODUCTION

Redraw the wordmark as vectors with the kerning above baked in; commission the ذوق in true nastaliq calligraphy; export the arch per size rather than scaling one file, and the solid arch separately for 32px and below.
